Motion To Object To Recommendation

I Amos Lott Simms is objecting to the U.S. Magistrate Judge Recommendation Do the fact I do have fact to support my claim. I have grievances that I file doing incident when it occurred. I also stated the fact doing my complaint is well. The incident that occurred was a violation of my constitutional right, and did in fact cause mental and emotional distress toward me do to the fact I was emotional depress and cause me to get out when I would normally consult with a ranking officer. I lost all trust in them do to the fact Ms Timms was a Lt and she had influence over the other ranking officer to where I'm just an offender that is incarcerated in prison. They would take her word over my which is unfair. I became very very emotional and depress I am a mental patient I was diagnose Bipolar and depress in 2012 on July after my mother past way we were very close to one another she was my suppose with out her I had nothing or no one to depend on period. So during all of this

I went in depression. MS TIMMS also hunt me by  
 insult me by call me child molester and my mother  
 as well by call her a crack head dope fiend. I'm  
 not a child molester period I never had a charge  
 charge like that ever in my life. and yes my mother  
 was an & drug addict. I wonder how she ever  
 line that out with out knowledge of her she never  
 knew my mother period. And one of my brother's  
 serving a life sentence for capital murder of a  
 child not me. She has a lot of personal knowledge  
 of my family and I don't know where she got it from.  
 MS TIMMS has denied me religious services on  
 several occasion. I have I-60 to support my claim  
 stating that I was on the Jumah Roster and was  
 still unable to attend Jumah services for over a month  
 in 1988. I have witness to vouch for me Travontae  
 Malone # 2207387 and another muslim brother that  
 incarcerated with me on the Preston E Smith unit  
 during the time I was assign to that unit I don't  
 have his information on hand at this moment but I  
 do in fact have it if need. Officer Magdalena  
 Dominguez and officer Bikenze did in fact denied  
 me my Ramadan-compliant halal meal on two  
 occasion by bring my breakfast before sunrise. so  
 I could not fast. They both knew it was the month  
 of Ramadan and I was fasting. I was told by  
 officer that he didn't care about me fasting nor  
 did he care about Ramadan. All three Defendants

has true hatred toward the religion Islam and muslim period. I have I-60 to Vouch that I was on the Church Services Roster list for Bridley Services. The I-60 and grievance I file against is proof and can prove fact that is need. I'm suing all three defendant in official capacity and individual capacity as well. My Constitutional Rights was insult viliated by all three defendant by denying me my religious rights which is the First Amendment I was insult mental and emotional distress by them provoking me by denying me my right that I'm rightfully entitle too. They knew exactly what they were doing to me by intentionally inflicting and causing emotional distress upon me. I became very angry and upset which cause me to become very depress mental and emotion distress. I'm on medication to help me stay calm so I won't let out and get myself into any kind of trouble. So I'm asking the court to proceed with this claim and not dismiss it do to the fact my claim isn't moot. I would and will greatly appreciated your assistance with this claim and be very grateful as well.

Thank You  
 Very Kindly  
 Sincerely Your  
 Anna Lot Simms
